Activity 7 Questions: 
Applying the Ethical Considerations to Carl’s Case

Respect for Persons
- Should society respect a person’s choice to use an enhancement technology even when doing so will negatively affect the person’s health?

Harms and Benefits
- Are enhancements harmful or beneficial to individuals who use them?
- Are enhancements harmful or beneficial to society when individuals use them?

Fairness
- Is it fair for an individual to use an enhancement?
- Does fairness require that everyone in society have equal access to enhancements?

Authenticity
- Does using enhancements in sports performance violate what people most value about sports?
